

Scope of Work

This Scope of Work (the “Scope”) describes the process and methods HDA will use to complete a Housing Needs Assessment covering Fauquier County, the town of Warrenton, and the census-designated place (CDP) Bealeton. This proposal integrates quantitative analysis with strategic stakeholder engagement to provide a complete understanding of housing needs and challenges in Fauquier Habitat for Humanity’s service area.

The Housing Needs Assessment will include the following components:

1. Virtual stakeholder interviews
2. Complete technical report
3. Summary handout
4. Summary slidedeck
5. Presentations to key audiences

The total cost for this comprehensive Housing Needs Assessment is **\$25,000**.

1. Virtual stakeholder interviews

Description

Strategic interviews with key housing stakeholders to gather qualitative insights that complement our quantitative analysis. Interview topics will include:

- Demographic and socioeconomic trends influencing housing demand
- Affordability, quality, and other characteristics of current supply
- Factors influencing price, location, and availability of new residential construction
- Perspectives on greatest housing needs

HDA will work with FHFH to identify 6-8 key informants, potentially including:

- Affordable housing developers
- Local government planning staff
- Major employers
- Social service providers
- Real estate professionals

Deliverable(s)

- Interview protocol
- 6-8 virtual interviews (45 minutes each)
- Summary findings integrated into technical report

2. Complete technical report

Description

Comprehensive analysis of the housing market across the study area. HDA will utilize public and private datasets to examine:

- Current housing inventory characteristics and recent production trends
- Demographic shifts and socioeconomic factors driving housing demand
- Market dynamics in both ownership and rental sectors
- Affordability gaps analyzed by income level, household type, tenure, and other key variables
- Special needs populations and their housing challenges
- Projected future housing needs based on population and employment forecasts

The report will make use of charts, tables, maps, and other visuals to effectively illustrate trends. HDA will minimize jargon and technical language where possible, but the report will be primarily tailored for practitioners and policymakers already knowledgeable in housing. However, content generated in the report will serve as the basis for the public-oriented handout and slidedeck described below.

Deliverable(s)

- Technical report in PDF format
- Interactive webpage with key findings and visualizations

3. Summary handout

Description

A concise, visually engaging executive summary designed for broad community distribution. This infographic-style document will highlight:

- Key demographic and housing trends
- Major affordability challenges
- Priority populations and their needs
- Action-oriented findings

The handout will be designed for easy reproduction and distribution at community meetings, advocacy events, and stakeholder briefings.

Deliverable(s)

- Infographic-style PDF document suitable for print (2-4 pages)

4. Summary slidedeck

Description

A comprehensive presentation summarizing the housing needs assessment for use by FHFH in various settings. The slidedeck will include:

- Executive summary of methodology and approach
- Key findings with supporting graphics
- Strategic implications for affordable housing development
- Customizable sections for different audiences

Deliverable(s)

- PDF slidedeck
- Editable presentation as Google Slides or Microsoft PowerPoint file

5. Presentations to key audiences

Description

HDA will deliver the housing needs assessment findings to two priority audiences identified by FHFH. Potential audiences include:

- FHFH Board of Directors
- Local housing coalition members
- County/town planning commissions
- Community stakeholder groups

Presentations will be tailored to each audience's interests and decision-making needs. HDA would rely on FHFH to identify presentation opportunities and help coordinate logistics.

Deliverable(s)

- One 60 minute in-person presentation
- One 60 minute virtual presentation
- Q&A facilitation for both presentations
